

JELCO RotoLift™ Flat Screen Mobile Lift Case

All-in-one Mobile Presentation Solution

JELCO's RotoLift Case allows a flat screen display to be setup by one person and ready for use in less than 5 minutes without electric power.

Ideal uses include rapid setup in hotels, events, tradeshow, training facilities, sports arenas, military installations, campuses and more.

The display stores vertically which creates a smaller case footprint. JELCO's proprietary rotating mounting bracket allows for the display to be used horizontally or vertically as content needs require.

Easily store, transport, and use a 37"-70" flat screen in the RotoLift case.

Time is valuable. Spend it on communicating your message, not on display setup.

Making Your Gear as Mobile as You Are.

JELCO RotoLift™

Flat Screen Mobile Lift Case

Optimized for the most versatile user and viewing experience

- Pull the release handle and the EZ-LIFT® lift system gently lifts the display out of the protective case. Keep it in portrait mode or rotate to landscape, then adjust height as needed. When you're finished with your presentation, simply rotate the display back to vertical and push it down gently to lock it in the storage position. No electrical power is needed for EZ-LIFT.
- Permanently mount and wire your display for easy set-up in less than 5 minutes
- RotoLift models available for 37" to 70" displays

Features

- Proprietary universal rotating mounting bracket for flat-screen display
- Full range of locking viewing heights from approximately 49" to 67" at the center of the display
- Shock-mounted EZ-LIFT mechanism
- Integrated cable management system
- 2-piece locking lid is split for easy setup by one person
- Four heavy duty 4" locking casters (6" casters available by request)
- Rear access port for electric cables
- Mounted multi-outlet power strip
- Plastic cavity covers conceal the inside of the case when in use
- Interior storage compartment for accessories

Accessory Options

- **DRAPE KIT** gives case a finished look ready for any presentation
- **REMOVABLE EQUIPMENT SHELF** holds DVD player, laptop, media player, or related items
- **EQUIPMENT PANEL** mounts to back side of lift for mini computers, media players and wireless devices
- **STABILIZERS** for added protection against tip over
- **SIDE GLIDES** help to easily slide unit when stored on edge instead of on the wheels
- **WHEEL UPGRADE** to 6" locking casters recommended for outdoor use
