

ViewShare Advantage Electrol

The ViewShare™ Advantage® Electrol® integrates an HD camera into the screen, and is compatible with any free peer-to-peer video conferencing software. It features a USB connection to ensure ease of use for your customer.

Designed to eliminate the extra step of finishing the screen with trim, the Advantage line of projection screens is designed with ceiling trim already in place. Once the screen is installed, the screen's trim conceals the rough opening eliminating the need to complete additional trim work.

Sliding installation brackets make it easy to attach the screen housing to the structure above the drop ceiling.

The ViewShare Advantage features simple ceiling-tile installation that can be done in two stages. The screen case can be installed during the rough-in construction stage and the fabric assembly can be completed during the finishing stage.

Features

- HD camera integrated into the screen
- Easy USB plug and play connectivity
- Compatible with any free peer to peer software such as Lync or Skype
- Standard Silent Drive System to keep your screen whisper quiet
- Standard Low Voltage Control (LVC) to keep your screen operation flexible
