

The **Pop-Up Cinema Series** is a portable spring-framed projection screen for instant setup for outdoor or indoor environments. The lightweight spring metal construction allows the material to “pop-up” instantly while supporting the SilkWhite material and its black-mesh border. The SilkWhite projection material is a synthetic fabric designed for the rigors of outdoor use while also doubling as an exceptional projection surface for indoor presentations as well.

Features

Screen Material

- SilkWhite lightweight synthetic projection material
- 1.1 gain reflectivity with wide viewing angle
- Black masking borders enhance perceived picture contrast
- Spring wire frame enhances screen surface tension
- Accommodates both standard and short throw projectors
- Screen surface can be easily cleaned with mild soap and water

Design and Installation

- Lightweight & flat design is traveler friendly
- 32” diameter carrying case holds all components
- Built to withstand light wind conditions
- Nylon spring-loaded frame system unfolds effortlessly
- Assembles in seconds with no tools required
- Stakes, net base, and support rods included for added stability
