

PRO FRAME THIN DARKUST 2

The **Pro Frame Thin DarkUST 2** is an EDGE FREE® ultra-short throw fixed frame screen. It uses our innovative ceiling ambient light rejecting DarkUST 2 material which absorbs up to 85% of overhead light. The DarkUST 2 material has a serriform optical surface structure made specifically to negate the washout effect caused by overhead and other off-axis light sources. This technology allows the material to retain image brightness, color saturation and contrast for superior picture performance.

Screen Material

- DarkUST 2 Ceiling Ambient Light Rejecting® material absorbs up to 85% of overhead lighting
- 80x contrast improvement over matte white under ambient light room conditions
- Micro-serriform optical structure filters out ambient light for superior picture quality
- ISF Certified for Accurate Color Reproduction – An Industry Standard for High-Fidelity Video Systems
- Ultra-wide viewing angle allows viewers to spread out while maintaining uniform picture quality
- 4K/8K Ultra HD Ready

Design & Installation

- Black backing eliminates light penetration
- Sleek EDGE FREE® Fixed Frame resembles a flat panel TV
- Lightweight aluminum split-frame design
- Wraparound design maximizes viewing area and reduces overall footprint
- Ultra-thin black bezel trim
- Project within a short distance without shadowing the picture
- Designed for table-top ultra-short throw projectors
- 5-year premium manufacturer's warranty
- Available in diagonal size 123" in 16:9 aspect ratio
