

WHITEBOARDSCREEN THIN EDGE CLR® 2 SERIES

The **WhiteBoardScreen Thin Edge CLR® 2** functions as a projector screen that is designed for ambient light room environments, but serves as a dry-erase writing surface. It outperforms conventional whiteboards by providing superb color temperature, image brightness without the glare that occurs on regular whiteboards to provide artifact free presentations.

The WhiteBoardScreen Thin Edge is bordered with an ultra-thin aluminum black frame that protects the edges while enhancing perceived visual contrast and maximizing the projection/writing area.

Screen Material

- CLR® 2 – Ceiling Light Rejecting material absorbs 90% of overhead lighting
- Produces exceptional image brightness, color saturation and contrast for superior picture performance in ambient light room environments
- 160° viewing angle (80° L/R)
- Micro-filter structure allows for table-top mounted ultra and short throw projectors
- 4K/8K Ultra HD Ready, smooth non-textured surface
- ISF Certified for Accurate Color Reproduction
- Available in the diagonal sizes 90” in 16:10, 97” in 16:9 and 107” in 2:1 aspect ratio

Design & Installation

- Scratch-resistant laminate coating allows material to act as dry-erase surface
- Designed for collaborative classrooms, boardrooms, conference rooms and training facilities
- Cutting-edge design combines projection screens and dry-erase board into one space saving economical product
- Compatible with **tabletop ultra and short-throw projectors ONLY**
- Wall mounts included that permit wood stud installation and allows screen to slide
- Includes a heavy-duty pen tray, dry-erase pens, erasers, and cleaning solution
- 5-Year Premium Warranty by Elite ProAV
