

JELCO[®] Large Screen Monitor Padded Covers

JELCO large screen monitor padded covers are constructed of black nylon fabric, which is backed, with 1/2" of industrial grade foam. The interior of the foam is covered with a soft flannel fabric to prevent scratching face of the monitor.

Covers are designed to fit very snug around the monitor and are held in place with a hook and loop fastener at the bottom edge. Custom "heat vents" on some models allows heat dissipation of monitor when covered after use.

Suggested applications include covering monitor when mounted on a stand (prevents scratching front glass surface when moved through doorways), at trade shows during set-up and teardown or just for general protection when not in use.

JELCO Large Screen Monitor Padded Covers are available for 42", 50" and 60" monitors.

JPC – 42 42" Monitors up to 42" W x 27" H
JPC – 50 50" Monitors up to 50" W x 31" H
